DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-23 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Gerard'134, JP'939, WO'049. See USP'134, col. 1, lines 62 through col. 3, line 10, col. 3, lines 60 through col. 6, line 30, claims, examples; JP'939, paragraph 0008-00025, 00038-0049, claims; WO'049, page 2, line 30 through page 3, line 9, page 4, line 19 through page 7, line 7. Please note that when carbon nanotube is placed in the polymer matrix such nanotube is in fact coated.

The amendments and remarks filed by applicants March 31, 2009 have been fully considered. Applicants have argued that coated carbon nanotubes produced by the claimed method are different from the prior art nanotubes. However, the examiner submits that claims are effectively the article claims and the method by which such nanotubes are made has no patentable weight unless there structure is different as compared to the nanotubes of the prior art. There is no

convincing evidence on the record that the claimed coated nanotubes are different than the nanotubes disclosed in the prior art.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
